

ASMA DJATTOUF

Applied Biochemist | Computational Biology | Pharmaceutical R&D

✉ djattouf.asma@gmail.com ☎ 0554.58.11.70 📍 Algiers, Algeria

[linkedin.com/in/asma-djattouf-12647624b](https://www.linkedin.com/in/asma-djattouf-12647624b)

PROFESSIONAL SUMMARY:

Results-driven biochemist with a Master's degree (Honors) in Applied Biochemistry and a dual background in pharmaceutical sciences. Specialized in computational biology (molecular docking, ligand-protein interaction studies) and pharmaceutical quality systems (GMP, QC, QA). Peer-reviewed published author. Experienced teaching assistant with hands-on laboratory skills across research and industry settings.

EDUCATION:

- **M.S. in Applied Biochemistry — Honors (Mention Excellent)** 2023 – 2025
University of Algiers 1 Benyoucef Benkhedda, Algeria
Specialization in bioinformatics, structural dynamics, bioengineering, and industrial quality control Thesis: Computational study of ligand-protein interactions of natural anticancer compounds (PyRx / AutoDock Vina / Biovia Discovery Studio)
- **M.S. Year 1 in Pharmacological Sciences** 2022 – 2023
University of Science and Technology Houari Boumediene (USTHB), Algeria
Training focused on the study of pharmaco-oncological mechanisms, pharmacovigilance, as well as nano-pharmacology and drug design.
- **B.S. in Fundamental and Applied Biochemistry** 2017 – 2021
University of Science and Technology Houari Boumediene (USTHB), Algeria
Training that highlighted the fundamental principles of cellular and molecular biochemistry through conceptual approaches in cell and molecular biology.

RESEARCH & PROFESSIONAL EXPERIENCE

- **Teaching Assistant — Biochemistry & Cell Biology** Oct. 2025 – Present
University of Algiers 1 Benyoucef Benkhedda, Algeria
- Lead tutorial sessions on Metabolic Pathways and Control Sites.
- Teach the Biomolecule Production by Bioengineering module: recombinant proteins, expression systems, purification, and characterization.
- Supervise practical labs in Animal Biology (Histology).
- **Research Intern — Bioinformatics & Molecular Docking (Thesis Project)** Feb – Jun 2025
University of Algiers 1 Benyoucef Benkhedda, Algeria
Performed in silico analysis of natural anticancer compounds using PyRx, AutoDock Vina, and Biovia Discovery Studio. Validated therapeutic potential through comparison with pharmacological reference compounds. Documented findings in a thesis graded with Honors (Mention Excellent).
- **Intern — Pharmaceutical Quality Control** Jul. 2024
Frater-Razes Laboratories, Oued El Kerma, Algeria
Microbiological and physico-chemical quality control of injectable dosage forms. Culture medium preparation, water microbiological analysis, raw material and finished product testing per GMP guidelines.
- **Intern — Quality Assurance (Systems)** Mar – Apr 2024
Biogenal Pharma, Birtouta, Algeria
Supported QA team in GMP compliance, document management, SOP review and approval. Trained in pharmaceutical testing procedures and regulatory requirements.

■ **Research Intern — Immunogenetics & Immunopathology Laboratory**

Sep – Oct 2022

Institut Pasteur d'Algérie (IPA), Algiers, Algeria

Conducted Immuno-Dot TOP Screen analyses in a specialized research environment. Followed established protocols; applied strict decontamination procedures.

■ **Intern — Anatomic Pathology Laboratory**

Jul – Aug 2022

Centre Pierre et Marie Curie, Algiers, Algeria

As part of the assignments carried out: routine maintenance of the workstation and laboratory equipment. Applying acquired knowledge of immunohistochemistry and molecular biology techniques.

PUBLICATIONS: _____

- Issaad N., Cherifi T., Benikhlef F., Benchikh R., Akkache L., Belkadid A., **Djattouf A.**, Dekire A., Ouarek S. — Chemical composition and biological activities of clove essential oil (*Syzygium aromaticum* L. Merr. & L.M.Perry): Experimental and computational evaluation. South African Journal of Botany, Vol. 193, pp. 351-363, June 2026.

CONFERENCES & SCIENTIFIC EVENT: _____

■ 1st International Congress on Computational Biology, Bioinformatics & AI (ICIC-CBBAI-25) **Dec. 2025**
Saad Dahleb University, Blida, Algeria

■ 2nd Scientific & Pedagogical Day — Science & Technology (SPDES 2025) **Jun. 2025**
University of Algiers 1 Benyoucef Benkhedda, Algeria

■ 1st International Seminar on Phytodiversity (ISDVCP'25) **May 2025**
Hassiba Ben Bouali University, Chlef, Algeria

■ 2nd National Symposium on Pharmacotoxicology & Bioproducts (2SNBPT-PAM-2025) **May 2025**
Saad Dahleb University, Blida, Algeria

- Presentation of research work and networking with professionals in the scientific field.

SKILLS: _____

- Computational Biology: PyRx · AutoDock Vina · Biovia Discovery Studio · PubChem · PDB

- Laboratory Techniques: Microscopy · Immunohistochemistry · Histology · Electrophoresis · ELISA · Western Blot · PCR

- Pharmaceutical Industry: Quality Control · GMP (Good Manufacturing Practices) · QA Documentation Management

- Languages: Arabic (native) · French (C1 / Advanced) · English (B1 / Intermediate) · German (beginner)

Community Involvement: _____

- Volunteer member — Bassem El Amel Association (community service)
